#### **GENERAL CONDITIONS OF ENTRY**

- International Exhibition of Photography: The exhibition is open to anyone; however, an entry may be rejected when the sponsoring organization or its agent, in its reasonable discretion, believes the entry does not conform to the exhibition rules and conditions.
- Sections: The exhibition includes four sections: a.) Monochrome Digital Images; b.) Color Digital Images; c.) Photo Travel Digital Images; d.) Nature Digital Images. Entry forms for each section should be filled separately
- Exhibition Standards: This exhibition is held in conformity with the exhibition standards and regulations of the Photography Society of America (PSA), the International Federation of Photographic Art (FIAP) and The Canadian Association for Photographic Art (CAPA). The acceptances will be sent to PSA for "Who's Who" listing and Star Ratings; and to FIAP for counting towards FIAP distinctions. All entries shall conform to the stricter of these definitions for acceptances to be validated by all the International Organizations granting recognition or patronage. Acceptance Certificate 3. will be issued and report cards are sent via airmail.
- PSA Monochrome Definition: An image is considered to be Monochrome only if it gives the impression of having no color (i.e. contains only shades of gray which can include pure black and pure white) OR it gives the impression of being a grey scale image that has been toned in one color across the entire image. (For example by Sépia, red, gold, étc.) A grey scale or multi-colored image modified or giving the impression of having been modified by partial toning, multi-toning or by the inclusion of spot coloring does not meet the definition of monochrome and shall be classified as a
- PSA Photo Travel Definition: A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographic limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not appropriate. Close up pictures of people or objects must include features that provide information about the environment. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to grey scale monochrome. Other derivations, including infrared, are not permitted. All images must appear natural.
- PSA and FIAP Nature Definition: Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation. The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality. Human elements shall not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human, elements are in situations depicting natural forces, like hurricanes or tidal waves. Scientific bands, scientific tags or radio collars on wild animals are permissible. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.

No techniques that add, relocate, replace, or remove pictorial elements except by cropping are permitted. Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content, or without altering the content of the original scene, are permitted including HDR, focus stacking and dodging/burning. Techniques that remove elements added by the camera, such as dust spots, digital noise, and film scratches, are allowed. Stitched images are not permitted. All images must appear natural. Color images can be converted to grey scale monochrome. Infrared images, either direct-captures or derivations, are not allowed. Images entered in Nature sections meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

- FIAP Monochrome Photography Definition: A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black and white work toned entirely in a single colour will remain a monochrome work able to stand in the black and white category. On the other hand a black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the color category.
- FIAP Regulation and Definition: By the sole act of submitting his/her images or files to a salon under FIAP Patronage, the entrant accepts without exception and with no objection that the submitted images can be investigated by FIAP to establish if these obey to FIAP regulations and definitions even if the entrant is not a member of FIAP; that any refusal to cooperate with FIAP or any refusal to submit the original files as captured by the camera, or failure to provide sufficient evidence, will be sanctioned by FIAP and that in case of sanctions following the non compliance with FIAP regulations, the name of the entrant will be released in any form useful to inform the breaches of the rules. It is recommended to leave the EXIF data in the submitted files intact in order to ease eventual investigations.
- Responsibilities and Rights: Entries must originate as photographs (image-captures of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally. By virtue of submitting an entry, the entrant certifies the work as his own (aliases are not permitted). The entrant permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website. Note: Entrants who indicate that their images may not be reproduced or used "will not be eligible for awards" or inclusion in audio-visuals of the exhibition "and could be subject to disqualification" by the exhibition sponsors. The exhibition assumes no liability of any misuse of copyright. Images may be altered, either electronically or otherwise, by the maker.
- Entries: Entries are limited to not more than 4 images per section. An entrant's four images will be distributed throughout four rounds of judging in that section and their decisions are final and without appeal.

Each image must have a unique title. Once an image has been accepted in a PSA Recognized exhibition, that same image, or a like "in camera" or a "reproduction" duplicate of that image i. May not be re-entered in any section of the same Division Star Ratings class in that exhibition regardless of media, format, or title.

ii. May not be re-titled for entry in any other PSA Recognized exhibition.

Words such as "Untitled" and "No Title" are not acceptable as part or all of an image's title, nor are camera capture filenames or titles consisting of only numbers. No title or identification of the maker shall be visible anywhere on the face of an image.

Works submitted and awarded in any of our previous exhibition would not be accepted. Works not in conformity with the regulation will not be considered by the judging committee and related fees are not subject to refund. Submission of entries signifies acceptance of the conditions of entry of the exhibition. Should there be any discrepancy between the Chinese and English version, the English version shall prevail.
